

NEINOR HOMES CORPORATE CULTURE

Rev0 may2017

How is the human team that forms Neinor?
This is the profile of the people you should find here

We work as a team

We fully identify with the values of Neinor and with its vision, being aligned all in the same direction.

We think we are better if we rely on the colleague, we encourage the collaborative work and joint decision making and we understand the different cultures that make up Neinor.

Humble

We are proud of being part of the leading Spanish Real Estate company, but we assume it with the maximum normality and humility in our behaviors, accepting the value of others.

Intense

We are a tremendously intense company on a daily basis and that demands the maximum from each one of us.

Young and experienced

Dynamism, enthusiasm, an adequate mix of youth and experience, of different profiles and people from different sectors, are features that characterize us.

Ingenuous innovators (open minded)

We think that a traditionally resistant to change sector can be changed, that we can make things happen. We have an open mind, we are not afraid of things changing, the "it has always been done that way" is not part of our leitmotiv.

Agile

We understand that keeping leadership is only possible by being tremendously efficient in our work and very agile both in making decisions and in anticipation and adaptation to changes.

Integrity

The integrity, ethical and transparent behavior is an absolutely inalienable value in all and each one of the members of our team.

Pragmatists

We have an attitude and a thought that values over all the usefulness and practical value of things, with a clear focus on contributing value to all our stakeholders.
